Pre-Test Authorization Protocol

Site-Virtus

Scientific Department
Administrative Department

Document ID: AD-Protocol-006-1
Classification: Unrestricted(CL-1)

1.Pre-Test Authorization

Effective scientific inquiry forms the cornerstone of the Foundation's existence and operations. The Scientific Department is tasked with researching all contained and newly acquired SCP objects, developing countermeasures for containment breaches, and designing specialized equipment and medical products for production. To uphold departmental objectives, safeguard Foundation interests, ensure facility and personnel safety, preserve the integrity of the Veil, and advance the Foundation's mission, rigorous approval protocols are mandated for all SCP-related research.

This document establishes binding regulations for all Scientific Department personnel. Non-compliance will result in disciplinary action.

Any testing of SCP objects by Science Department personnel must be preceded by submission of a formal application to the Department Supervisor of ScD.

1.1 Application Form Requirements

The standard application template must include:

- Test Subject: SCP designation(s)
- Object Class:
- Involved Personnel/Departments:
- Estimated D-Class Personnel Usage:
- Security Requirements:
- Methodology:
- Expected Outcomes:

1.2 Radio Communication Protocol

For verbal requests via secured radio channels, use the following format:

*"(Applicant codename) CL-(level), requesting testing of (SCP),
requiring (department acronym) participation, D-Class personnel
(number), security personnel (number)."
Underline parts are optional.*

2. Post-Submission Review Process

2.1 Department Supervisor Review

Upon receiving an application, the Department Supervisor of SCD must:

- Verify the applicant's clearance level matches the SCP's Classification class requirements.
- Confirm the involvement of personnel/departments aligns with operational needs.
- Validate D-Class personnel quotas comply with the Code of Ethics (CoE).
- Ensure methodology poses no undue risk to facility integrity or personnel.
- Confirm the target SCP is in a test-ready state.

2.2 Approval/Rejection Criteria

- Approval: Granted if all criteria are satisfied.
- Rejection: Issued with written feedback for revisions if deficiencies are identified.
- Maximum 3 revision attempts permitted per application.
- Denied applications may be resubmitted after 72 hours.

Applications vetoed by the Department Supervisor but subsequently approved by the 05 Council shall proceed immediately.

2.3 S3-Related Testing Addendum

Applications involving Sector-3 (S3) require:

- Compliance with AD-Protocol-006 Section-1.
- Submission of a parallel request to the Administrative Department (AD) for approval.

2.4 05 Council Override Authority

Direct Approval:

- 05-authorized tests are prioritized as Tier-1 Operations.

Final Veto:

- 05-rejected applications are permanently voided and may not be resubmitted.

Approved tests must commence within 48 hours of authorization. Failure to do so within the time limit will be deemed to have given up the test. Testing should be carried out safely in accordance with other regulations.
